ARTIST BIOGRAPHY

Eclectics, heterodox, energetics bus most of all Iberians. They are Gameboyz – the current Spanish duet formed by Charlie (Carlos Franco) and Kali (Luis Vallespin) – two producers like two volcanos erupting. They are recognized because they are always looking to the future searching inspiration into the past. As a result they have published “Carne de Puerca”, “El Calor del Foco”, “Mucho Danger” or “Tacón Puntera”...

Their Live Acts are full of synths, vocals and effects and their adaptability is well known by their audience. Gameboyz was born in 2012 along with Da Well (Manuel Madero) and they have played in several clubs as Apolo, Lanna Club, Razzmatazz, Siroco or La3.

They have also founded Melómana Records, their private sanctuary where they have published Alejandro Paz, Damon Jee, Stockholm Syndrome, Trónik Youth among others.
